## A NEW RAILROAD.

One is Talked of Now From This City to Rowan.

The following is from The Morehead Advertiser, and explains itself.

Instructions were received on Thursday by Superintendent W. W. Reynolds of the new Hixson-Rodburn Company from the company's headquarters at Rochester, N. Y., to stop all work on the railroad now being built by the company to Pine Springs. It is a narrow gauge and was to be used to haul logs to the mill. Superintendent Reynolds was ordered to commence to change the road from a narrow gauge to a standard gauge and to push the work to his utmost ability. He was informed that standard had been purchased and would commence to arrive in a few days. A new engine has been purchased and will be here in a month or six weeks.

An advance report called at the office of the company at Rodburn Friday to interview Superintendent Reynolds. He readily confirmed the rumor that he had received instructions from Rochester to change the road from a narrow gauge to a standard gauge, and that new standards and a mogul engine had been purchased, but further than this he would say nothing.

To the question as to whether the road was to be built farther than Pine Springs he couldn't tell. When informed that it was rumored that the road was to be extended from Pine Springs to Flemingsburg and thence to Mayville to tap the C. & O. Short Line river division, he showed much surprise, but when asked to confirm or deny the rumor, he said he couldn't tell, but such a thing might happen and then again it might not. He refused to say anything farther about the railroad, but informed that not much as the railroad was built into the timber land they would put the mill in operation, and that in the meantime it would be run a day or two at a time on logs near at hand. He said he did not believe it would be over a month before the mill was in operation. When asked how soon would commence to change the track into a standard gauge he said that ninety men were then engaged on the work and that he was adding to the force as fast as he could get the men.

This was all that could be learned at Rodburn, but later we found out that a party consisting of Vice-President T. J. Reynolds, Civil Engineer Charles M. Morris, and others, were at Rodburn Saturday morning on horseback. They proceeded along the line of the road to Pine Springs and from there they went to Lemingsburg. They returned to Rodburn late Sunday and early Monday morning went to Rodburn to see President Reynolds.

Miss Lida Power of Flemingsburg, whose illness was reported in THE LEDGER, is a great deal better.

Dr. William M. Politis has been appointed Officer of Elections in Mayville Precinct No. 6, in place of Mr. S. A. Piper, resigned.

The service in the Church of the Nativity will be held in the evening, beginning at 7:15 promptly.

The congregation will please take notice. Sunday morning service will be held at the usual hour. No night service.

Mr. Alexander Sanderson, Choudrant, La., says: "Having used Ayer's Pills at least twenty-five years, I would say that for the diseases of the bowels, stomach and liver, which can be remedied by pills, these are always effective. They keep the system in perfect order."

The Dover News says: "The musical troupe, The Melodeons, which left the Town hall, Saturday night, was very well attended, and fully repaid those who heard the program rendered. The male quartette was especially good, and Mrs. John Bacon and the other ladies—sweet voices all—sang in a very pleasing manner. We were glad to have them with us."

Loc Smith, an old citizen of Bourbon county, died Thursday last, aged 85 years. He left quite a fortune, consisting of 1,500 acres of land near Jacksonville, money, notes and other property. After his death his chosen executor found in his clothes \$1,315 in currency, and \$115 in Mexican silver. In an old stone house in a cheese box they found \$2,650 in currency, \$185 in gold, a Carolina \$3 gold piece, amounting in all to \$4,179 38, and a Spanish gold piece. Several thousand dollars in notes were also found.

F. B. Ranson & Co. advertise in this issue their stock of boots and shoes at cost, having determined to retire from the business. Mr. Ranson, the senior member of the firm, has been identified with the boot and shoe business of Mayville for twenty-seven years and in that time has sold more goods in this line at retail to the people of Mason, Lewis, Fleming, Nicholas, Robertson and Bracken counties than any that ever did business in Mayville. This certainly gives him a high opportunity to know the wants of the people in this section. Mr. Ranson states to us that in all this time selling good, honest footwear, that there never was a stock that can compare with the one they are now offering at cost, in quantity, quality, style and price. This is a guarantee that you will get the greatest bargains of a lifetime in this closing-out sale.

**Tennessee's Pardner.**

A beautiful Western Idyl by Scott Marble, an interesting story of life in Scott Marble, an interesting story of life in

the life of the people at the Opera house on Monday evening, September 24th, with Core Van Tassel, one of the greatest favorites that has ever appeared in Mayville. She is supported by an excellent company, a card of beautiful scenery, the Rocky Mountain String Band and the Sand Hill Quartette. We append the following from The Boston Globe: "During the past week, the dashy little comedienne, Core Van Tassel, has accomplished more in the way of winning hosts of admirers on her first week in Boston than many of the older stars have accomplished in years. Her play, 'Tennessee's Pardner,' is a charming Western story full of quaint characteristics drawn from the author's memory of the people he came in contact with while a resident of the mountains."

In our half of the first Van Winkle walked. Diehl went out. Johnson doubled to right, and Van scored. Kehoe doubled to right and Johnson only took third. McGann doubled to center and both runners scored. Sutherland hit for one, McGann scoring. Burke, the right fielder, out, and so did Cox.

No runs were made on either side until the sixth inning, when the Reds got four and the make outs two.

## ROT! ROT! ROT! ROTTEN!

### THAT'S WHAT THE SO-CALLED GAME WAS YESTERDAY.

The Cincinnati Reds Defeated a Cincinnati Team of Misfits by a Score of 17 to 8—A Few Notes.

In the seventh the Reds got four more, while the jokers only rubbered one more.

In the second inning McGann made a beautiful catch of a low fly to deep center with his left hand, and in the fourth made one of the most sensational catches ever seen on the grounds. He ran full two squares and caught the ball, and everybody took off their hats to him. Mac is a ball player of the best kind—better, in fact, than anything the Red bats have got.

The batters were—Maysville, Reiman, Smith and Kehoe; Cincinnati, Foreman and Gray.

Here's the game by innings:

Innings	1	2	3	4	5	6	7	8	9
Cincinnati.....	0	0	0	0	0	4	4	0	17
Maysville.....	5	0	0	0	2	1	0	0	8

+ SHORT STOPS.

The crowd numbered about 2,000, and it was a sore one after the game.

Twenty hits in seven innings is a splendid showing for a League aspirant.

If Hellemen was in the game yesterday the score would have been quite different.

THE LEDGER is indebted to the Cincinnati reporters for courtesies extended—nitt!

We would be pleased to take another trip to Cincinnati to see the same team play again—in a horn!

That shortstop and that second baseman for the Mayvilles should have their due and be placed in a nice of boys.

Yesterday's defeat was no disgrace to the Mayvilles team for the simple reason it was not the Mayvilles team that played.

The Reds want to play here October 4th. By all means let them come. There will be about steam people out to see them.

The crowd was composed of old-time "poopers" from way back, and all were for Mayvilles, as we didn't have our team, and of course went down in ignominious defeat.

Reiman wanted \$25 yesterday morning to pitch the game. Had the management given him \$25 to have stayed off the grounds we would have fared a great deal better.

Smith was put in the eighth inning, and no man went to first. Had Richie been in at the start there's no one to doubt the fact that the Reds would have even got a run.

Had the people of Mayville known that Reiman was going to pitch that game yesterday it is safe to say that the crowd from this city could have been counted on your fingers, and you'd have had none left.

"Wonder what is the matter with Hall," said the spectators, "that they aren't in the game?" was the question fired at us yesterday by a number of Mayvilles people, and all we could say was "Wonder."

THOMAS A. DAVIS, Chairman  
Committee on Invitation.

The dry weather has hastened the maturity of corn, and this fact may slightly affect its quality in some localities. The earlier fields are now being cut and the work will be in progress from now on to the end of the season. Very little damage will be done to the crop from the excessive heat, and will, therefore, be of inferior quality.

At the present outlook it would appear that all the tobacco yet remaining in the fields would be safely housed before the average date of the first killing frost in Kentucky, October 6th. Some complaint is made of tobacco worms, but the crop generally has not suffered from this cause, and the outlook for it is a whole very favorable.

Clover seed is reported to be abundant, and is being hulled.

Apples are very abundant and under favorable weather conditions, the latest varieties are rapidly advancing to maturity.

Melons of all kinds are of fine quality and very plentiful.

The reports relative to late Irish potatoes are somewhat conflicting in character, but their general condition is fair.

Good soaking rains would greatly improve the prospects for all crops yet unharvested.

**KENTUCKY REPUBLICAN PLATFORM.**

We are opposed to the free and unbalanced currency of silver, believing that it would involve the country in financial ruin. We believe in a sound currency and in the use of both gold and silver for coinage, provided always that a dollar in one is made precisely as valuable as a dollar in the other.

We favor a Tariff so regulated as to protect the interests of all classes of our citizens upon articles that may be successfully manufactured or produced in this country, and to afford a market to the laborer, and a home market to the producer; and in connection with this we favor the re-establishment of the doctrine of reciprocity. We believe that such a policy will defend every American industry against foreign competition, and that it will protect public credit and restrain to the rear the undue exaction now prevailing concerning the currency. In view of the past American history of the Democratic party, its devotion to the slave, and its present tendency to agitate, that the Republican party can be more safely trusted to regulate the financial system of the Nation.

We favor an American policy which will protect the American interests in every part of the world at all hazards and will sympathize with struggling Republics rather than ignorant monarchies.

## Uncle Sam's Shortage.

The deficit in the National Treasury for the present fiscal year—from July 1st to date—is \$14,812,645.51.

The Democratic newspapers of Louisville throughout all last week said so many kind things of the old soldiers that we may never see them referred to as "foolish coolers," whatever that may mean.

CHARLES HUTCHINSON, a Bank President of Chicago, states that he has positive knowledge that arrangements for another bond issue are about completed. And yet WILLIAM LIAR WILSON tells The New York World that his Free-trade Tariff Bill produces all the revenue needed to run the Government.

It is an open secret that when Congress meets in December the Republican majority is going to order a most thorough investigation of the President's foreign policy, especially in regard to the Hawaiian and the Alliance matter. Of course, the Mora claim and the present patrol of Cuban waters will come in for its share of investigation, and there are people in Washington who say that the developments will not be altogether favorable to a third term of GROVER CLEVELAND.

One of the greatest of the Free-trade war cries has always been that "if we did not buy we could not sell," meaning that if we manufactured in our own country all the goods required for our own market without importing any from foreign countries, then foreign countries would not buy any of our products or domestic manufactures. Many people have been foolish enough to believe this theory. Now let us look at the facts.

Taking the statistics of our import and export trade for the fiscal year ending June 30th, 1894 and 1895, as supplied by the Bureau of Statistics of the Treasury Department, we find that our imports from European countries during the two years were as follows:

Imports From Europe.	1895	1894
.....	\$23,668,842	\$23,077,365
Decrease, 1895.....	\$88,698,977	

It appears that during the 1895 year, since the Gorman Tariff went into effect, we bought from European countries foreign goods worth \$88,698,977 more than we bought in 1894. Having increased our purchases by this large sum of money in a single year we naturally turn to the figures of our exports, expecting to find that we have increased our sales of American goods by about the same amount of money; but what do we find? Here are the figures:

Exports To Europe.	1894.	1895.
.....	\$700,870,822	\$71,975,103
Decrease, 1895.....	\$72,990,000	

It seems that during 1895 we sold to European countries \$72,990,000 worth less of our American products and manufactures than we did during the fiscal year ending June 30th, 1894. In the 1895 year we spent over \$88,600,000 more money in European countries, and they spent \$72,900,000 less money in this country. We certainly bought more from them, but, instead of their returning the compliment, they bought less from us. Our loss for the year's deal under the Gorman Tariff, which is only the first step toward Free-trade, exceeded \$160,000,000. Thus another Free-trade theory is smashed.

UNDER the Wilson Tariff for the first seven months of 1895 the imports exceeded the exports by \$7,815,904. This is the first time that this has occurred in many years. But it is the natural result of the Free-trade policy, which means that we shall buy more goods from Europe than Europe buys from us.

The total imports of merchandise for July, 1895, were \$7,557,002 greater than in the same month of 1894, and for the first seven months of 1895 the total imports of merchandise had increased \$63,414,086 over the same period in 1894. That's the true Free-trade policy—to buy foreign-made goods while American factories are closed and American workmen are idle.
